DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 23-28 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. It is not clear as to what the draw portion of the sleeve is in reference to. There is no support in the specification for this limitation.

Claims 23-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 23, line 7, it is not clear if the sheet is a part of the elongated flexible strip or a separate sheet that makes up the pocket. In claim 23, it is not clear as to what the drawn portion is in reference to. In claim 24, it is not clear if the attachment element is attached to the first and second end portions of the flexible and elastic material of the strip or of the strip that the pocket is made of. In claim 25, line 2, the phrase "is of a type" is vague and indefinite. In claims 26-28, there is a lack of antecedent basis for the first and second bands.
